

REJUVEROSTRO

SOLUCION INTEGRAL PARA MEJROA DE LAS ARRUGAS INTEGRAL SOULTION FOR AGING WRINKLES

REJUVEROSTRO Noticeable effects on the reduction of fine lines and wrinkles by generating new skin cells

What it does?

It is a precise, ideal mixing ratio of Methylsilanol Mannuronate, sodium chloride, Sodium DNA, Acetyl Hexapeptide-8

What is it for?

Reduces and prevents fine lines and wrinkles with newly generating skin cells. It strengthens skin elasticity by inducing the synthesis of collagen, elastin and other ECM. Hydrates dry skin and helps it to maintain its optimum moisture balance. Reduces and prevents the lines and wrinkles by encouraging cell generation

Protocol of application:

Micro needle ling system, **Derma Roll**, electro oration, electrophoresis, iontophoresis or other non-inva techniques improving skin bio-availability of product

Main Ingredients:

Aqua, Metylsilanol Mannuronate, sodium chloride, Sodium DNA, Acetyl Hexapeptide-8, Phenoxyethanol, methylparaben, sodium methylparaben, propylparaben, Butylparaben, Ethylparaben, Isobutylparaben, sorbic Acid, Sodium Hydroxide

How supplied: *REHUVEROSTRO* box contains 10 sterile vials of 5ml each, for single use

Frequency:

1-2 sessions / week

1 protocol = 4 sessions average

Average volume/session: 1,5 ml / area, maximum 5 ml / session

Recommended number of sessions:

Repeat protocol as necessary

Indications:

- Anti wrinkle solution
- Anti oxidant and moisturizing the skin, providing a soft touch and aspect
- Skin aging
- Smoothen skin relief
- Face life, neck lift
- Protect against sun damage
- Keep the skin more relax and looking softer

Caffeine (Methylsilanol Mannuronate)

REJUVEROSTRO Solution | 5 ml Vial 0.175 fl. oz. Mesotherapy Serum

Methylsilanol Mannuronate is considered a safe ingredient and is organic and natural derivative of seaweed that binds moisture in the epidermis therefore firming and strengthening the skin. Elastinate for firming activity

Caffeine works on skin in three ways: as a vasoconstrictor, an antioxidant, and a diuretic. It works by dehydrating fat cells, making the skin smoother. Recent studies have indicated that caffeine may protect against sun damage to skin cells.

Sodium Chloride

REJUVEROSTRO Solution | 5 ml Vial 0.175 fl. oz. Mesotherapy Serum

The regenerating and energizing properties of Sodium chloride make it ideal for use in facial and body treatments. It stimulates not only collagen synthesis but also fibroblast activity. Sodium Chloride Stimulating Solution can be used to treat a variety of complaints including skin ageing, stretch marks and hair loss.

Sodium DNA

REJUVEROSTRO Solution | 5 ml Vial 0.175 fl. oz. Mesotherapy Serum

It's a natural polymer with excellent antioxidant and moisturizing capabilities that protect the cell membranes from oxidative degradation. Its capacity to restore dead cells and reconstruct connective tissue stimulates the healing processes. Nucleic acid combats collagen destruction caused by sun rays, oxidative stress and tobacco. As well as being used in anti-ageing treatments to fight photo ageing, Sodium DNA also enhances the skin of smokers and is able to improve a variety of conditions such as dry skin, wrinkles

Argireline (Acetyl Hexapeptide-8)

REJUVEROSTRO Solution | 5 ml Vial 0.175 fl. oz. Mesotherapy Serum

Argireline Anti-Wrinkle Solution combines two active ingredients to achieve a mild, non-toxic Botox effect, reducing and preventing expression wrinkles by inhibiting muscle contraction. The perfect Botox alternative is for those who do not wish to lose their full range of facial expression. Argireline Anti-Wrinkle Solution has been proven effective both in reducing existing facial wrinkles and in preventing the development of new lines, directing its formulation to the heart of the very same wrinkle-formation mechanism.

Argireline Anti-Wrinkle Solution is effective for expression lines on the forehead, between the eyebrows, around the eyes and to reduce “bar code” lines on the lips.
